# WHAT IS NACURH?

---

NACURH stands for the National Association of College and University Residence Halls. The organization was formed in 1954 when student groups from four institutions came together in an effort to create something that would help the development of students in residence life across the country. Throughout the year, institutions affiliated with NACURH come together to exchange ideas, build relationships, and create a culture of growth and inclusivity. This culminates each year in an annual conference in which every one of our 400+ universities is invited to join us in celebrating our efforts and building to even better things.

# WHY AFFILIATE?

---

Member schools of NACURH Inc. and our respective regions are part of a network of students and professionals in student affairs at schools across the nation and stretching into other countries. The network we have built is ready to support our member schools and provide resources to ensure our member schools have the ability to put on programs and events that benefit their residential communities while also receiving recognition for the amazing things schools accomplish.

Being apart of NACURH gives you access to peruse the NACURH Connection RFI submissions for ideas on enhancing residential life on your campus and access to NACURH OTM submissions to name a few advantages of affiliating.
